DOOR FRAME
Porta RENOVA

PORTA RENOVA OFFER INCLUDES
- Porta RENOVA door frame from A to J + size "S" – 55÷75
- Adjustable tunnel door frame from A to J
- Beam with a feather (used for expanding the Porta RENOVA door frame) from A to J

TECHNICAL INFORMATION

DOOR FRAME CONSTRUCTION
The door frame consists of:
- main beams: horizontal and two vertical ones made from wood-based materials
- architraves
- Porta RENOVA door frame is manufactured and delivered to clients in a flat pack

EQUIPMENT INCLUDED
- two standard pintle hinges
- three standard pintle hinges for size "100" – "110" and in all sizes of door frames in Portadur veneer

DOOR FRAME SIZE
For wall thickness: (‘5 + A–J), width "60" – "100"

REMARKS
- Assemble of the door frame in rooms with fully finished walls (e.g. wallpaper) and flooring (e.g. parquet).
- The door frame is also available in the adjustable tunnel version (that is without the cut and seal, without the hinges and the lock strike).
- The door frame may be expanded using additional beams, also available for order.
- This door frame can be ordered with door leaves with 60 mm locks.
- When measuring the clearance for the door frame, all curvature irregularities both in the old door frame and in the wall must be taken into account.
