ON-WALL SLIDING SYSTEM PORTA

Complete set¹ of on-wall sliding door consists of:

- on-wall system
- door leaf in sliding version
- door frame in 'tunnel' version adapted to sliding system²

CONSTRUCTION

On-wall sliding system consists of:

- masking beam and fender beam made of chipboard and MDF
- rail with trolleys and rail cover
- sliding system is manufactured and delivered to a Customer in the form of a set of elements to be assembled on a site.

FINISHING

- masking beam and fender beam are covered with veneers, the colours of which are available in PORTA offer (Portadecor, Portadur, Super Matt, Portasynchro 3D, Portaperfect 3D)

EQUIPMENT

- rail with trolleys
- self-adhesive brush seal
- door leaf guiding system (to be assembled on floor)
- hook lock striker (option for extra charge)

DIMENSIONS

- single door: „60“, „70“, „80“, „90“, „100“.

DOOR FRAMES

- Porta SYSTEM door frame in 'tunnel' version p. 37.
- dimensions see p. 45.

NOTES

- National Technical Assessment ITB-KOT-2017/0184 edition 1.
- door frame should be assembled in the rooms with finished walls (wallpaper, painting, tiles etc.) and finished floor (for example, parquet)

1 The set is universal and has no side. Opening side can be changed by putting fender beam on left or right side of 'tunnel' door frame.

2 Not included in price.

IN-WALL SYSTEM COMPACT

Complete set of on-wall sliding door consists of:

- in-wall system COMPACT¹
- door leaf is 'sliding' version²

CONSTRUCTION

In-wall sliding system Compact consists of:

- sliding in-wall cassette with guiding elements
- door frame made of chipboard and MDF

FINISHING

- door frames are covered with veneers, the colours of which are available in PORTA offer (Portadecor, Portadur, Super Matt, Portasynchro 3D, Portaperfect 3D)
- sliding cassette and rails are made of galvanized steel trolley and steel fastening screw

EQUIPMENT

- sliding cassette
- rail and trolleys
- self-adhesive brush seal
- door leaf guiding system (to be assembled on floor)
- door frame
- fasteners
- hook lock striker (option for extra charge)

SIZES

- single door: „60“, „70“, „80“, „90“, „100“
- double door: „60+60“, „70+70“, „80+80“, „90+90“, „100+100“

DOOR FRAMES

- dedicated COMPACT door frame, see dimensions on p. 45

NOTES

- National Technical Assessment ITB-KOT-2017/0184 edition 1.
- system is dedicated for gypsum board walls of width 125 mm.
- door frame should be assembled in the rooms with finished walls (wallpaper, painting, tiles etc.) and finished floor (for example, parquet).
- Sliding system is manufactured and delivered to Customer in the form of a set of elements to be assembled on a site.

1 The set is universal and has no side. Opening side can be changed by putting fender beam on left or right side of 'tunnel' door frame.

2 Not included in price.

MINIMAX door frame

REBATED

THE CONSTRUCTION OF THE DOOR FRAME

Door frame consists of:

- one horizontal and two vertical beams made of MDF and equipped with necessary fittings and accessories
- architraves and quarter-rounds (additional option)

MINIMAX door frame is manufactured and delivered to a Customer in the form of a set of elements to be assembled on a site.

FINISHING

- door frame, architraves and quarter-rounds are covered with the same veneer as the door leaf (Portadecor, Portadur, Super Matt, Portasynchro 3D, Portaperfect 3D)

ACCESSORIES

- lock striker
- three pintle or PRIME hinges (see extra charges)
- rubber seal colour-matched to the colour of door frame
- plastic base, which is used to protect bottom edge of the door frame against humidity
- fasteners

ADDITIONAL SOLUTIONS

- door frame for double door leaves – equipped with 6 hinges; without lock striker

DIMENSIONS

- designed to be set on a wall of min 100 mm
- single door: „60“, „70“, „80“, „90“, „100“
- door frame for double door leaves – equipped with 6 hinges, without lock striker

QUARTER-ROUNDS

- size: 2 x 12 mm, length: 2150 mm

ARCHITRAVES

- width of architraves – 60 mm or 80 mm
- sharp edges
- cut at an angle of 90°
- sizes: „90“, „100“, „100+100“, „110+110“
- available options: set for one side or single vertical architraves

NOTES

- Technical Approval AT-15-5664/2012, ITB Warsaw
- door frame should be assembled in the rooms with finished walls (wallpaper, painting, tiles etc.) and finished floor (for example, parquet)

EXTRA CHARGES

- PRIME hinges

Porta SYSTEM door frame

REBATED

THE CONSTRUCTION OF THE DOOR FRAME

Door frame consists of:

- main beams: horizontal and two vertical made of chipboard and equipped with necessary fittings and accessories
- architraves 60 mm and 80 mm

Porta SYSTEM door frame is manufactured and delivered to a Customer in the form of a set of elements to be assembled on a site.
